

GROUPOSHOW

Exhibition: 31.01.2020 – 28.03.2020

Opening reception: Friday, January 31, 2020, 6-9 pm

Galerie Christian Lethert is pleased to start the new year with a group exhibition presenting all artists from the gallery program. Furthermore, we are delighted to introduce to you two new artists: Sonia Leimer and Roman Gysin.

Vienna-based artist Sonia Leimer shows sculptures that merge disparate patterns of time and space. Steel beams have been transformed into seat sculptures by using historical fabrics from a former Soviet production. Swiss artist Roman Gysin is represented with two new floor works. With his sculptural objects, he explores the materiality of satin on the one hand, and addresses its various connotations on the other.

The *GROUPOSHOW* provides an overview of the gallery's abstract-minimalist program and gives a first impression of the upcoming exhibition year.

During the *GROUPOSHOW* our new publication *Imi Knoebel - Paintings of Concrete and Cement* will be presented. The catalog, published on the occasion of our Imi Knoebel exhibition last year, includes a text by Prof. Martin Schulz. A special edition is also available.

We are very pleased to announce our first participation in the New York art fair *The Armory Show*, which will take place from March 4-8, 2020. The gallery will be represented again at *Art Cologne* from April 22-26, 2020. During the fair we will open our next solo exhibition with works by Kai Richter on Friday, April 24, 2020.
